

THREE TRUSTED BRANDS. ONE INDUSTRIAL PUMP SOLUTIONS PARTNER.

Tusk Industrial brings together three trusted pump brands—Dean, Fybroc, and Sethco—to provide reliable fluid-handling solutions for demanding industrial applications. Backed by decades of engineering expertise, Tusk Industrial delivers dependable products, application support, and service for customers operating in challenging environments.

DEAN™

CHEMICAL PROCESS AND HIGH-TEMPERATURE METALLIC CENTRIFUGAL PUMPS

For more than 150 years, Dean has delivered rugged metallic centrifugal pumps engineered for demanding chemical processing applications, reliably handling temperatures up to 850°F (454°C) and pressures up to 500 psig (34 bar).

FYBROC™

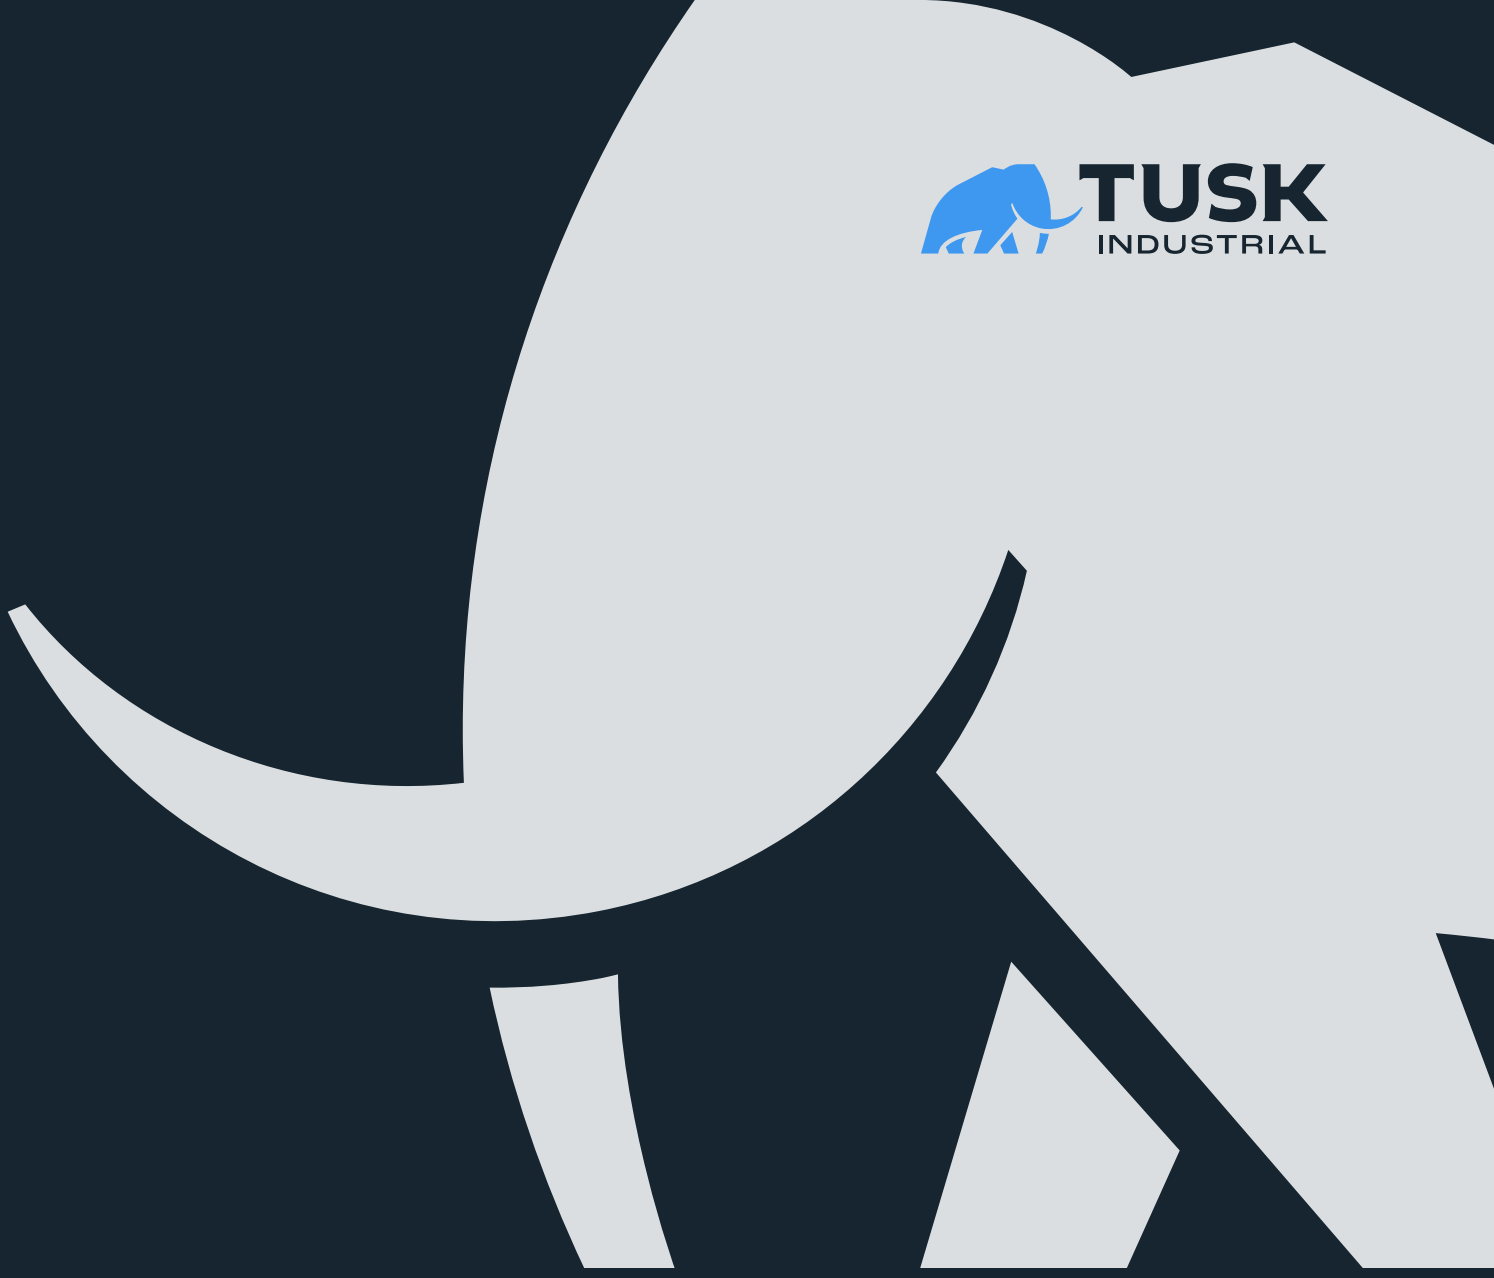

CORROSION-RESISTANT FIBERGLASS-REINFORCED POLYMER CENTRIFUGAL PUMPS

Fybroc's fiberglass-reinforced polymer (FRP) pumps combine advanced resin transfer molding (RTM) technology with exceptional corrosion resistance, making them ideal for handling aggressive fluids such as acids, brines, caustics, bleaches, solvents, saltwater, and wastewater.

SETHCO™

THERMOPLASTIC CENTRIFUGAL PUMPS FOR CORROSIVE APPLICATIONS

Built for harsh chemical environments, Sethco's thermoplastic pumps and filtration systems provide dependable, leak-free transfer of corrosive liquids, delivering flow rates up to 250 GPM (946 LPM) for water treatment, chemical processing, and plating applications.

DEAN

6040 Guion Road, Indianapolis, IN 46254, USA
